

MI-Access Online System vs. OEAA Secure Site

The OEAA Secure Site and the MI-Access Online System were developed to help increase the accuracy of data and to improve the efficiency of procedures related to state assessment. As the two password-protected systems continue to evolve, there most likely will be confusion about which system to use to perform which critical assessment functions. The following table was developed to help alleviate the confusion for District MI-Access Coordinators who need to enter and/or monitor information in both systems.

System/Site Functionality Reference Table

Functions	OEAA Secure System	MI-Access Online System
Submit Teacher/Student Counts (which determines how many and what types of assessment materials are shipped)	NO	YES
Pre-ID Students	YES	NO
Locally Print Pre-ID Barcode Labels	YES	NO
Update Student Demographics	YES	NO
Review Tested Roster	YES	NO
Order Additional Materials	NO	YES
View Shipment History	NO	YES
Update MI-Access Coordinator Information	NO	YES
Access Electronic Reports	YES	NO
Access Electronic Data Files for Districts/Schools	YES	NO

Any questions regarding the MI-Access functions should be directed to the MI-Access Hotline at 1-888-382-4246 or the MI-Access e-mail address at mi-access@tasa.com.
